Integration services

Kuortane provides information and support to immigrants and other international residents in everyday matters and practical questions – regardless of the reason for moving to Finland or the length of stay.

We offer assistance and information about Finnish society and public services, such as those provided by the police, the Digital and Population Data Services Agency, Kela, the tax office, and public employment office. We also provide guidance on healthcare services, as well as municipal services such as daycare and schools.

We help with finding language courses and educational opportunities, and with the application process. **Support is also available for issues related to employment and work-based immigration**, including applying for permits and understanding procedures.

In addition, we guide people to hobbies and other activities that promote inclusion and guidance in becoming part of the community. **We also offer advice** on housing, moving, and managing everyday life.

Our service is free of charge and multilingual, and we use interpretation services when needed.
